

QuickTest

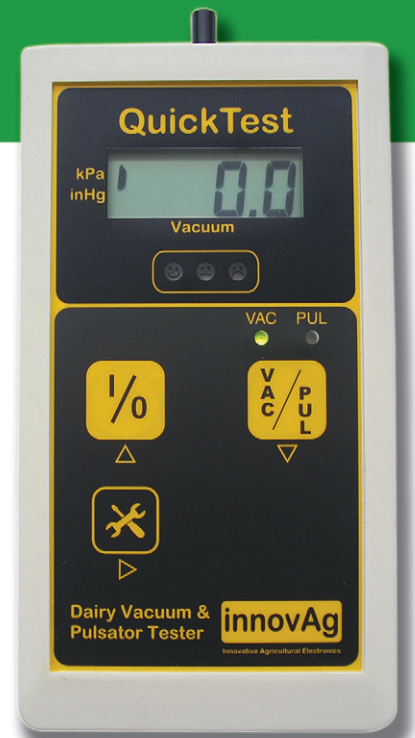

The Farmer's Dairy Tester

Complete Vacuum and Pulsation Analyser

A new generation of dairy test instrument

Measures *and* analyses vacuum supply and pulsators.

You know what vacuum your dairy needs, but is it stable?
Your pulsators sound OK, but are they really milking at their peak?
Now there's a cost-effective instrument that lets you check as often as you like!

- Separate Vacuum and Pulsation modes
- Easy to use: Green: **OK**, Orange: **Acceptable**, Red: **Problem**
- Large easy-to-read digital vacuum display
- Simple to set up for your dairy
- Complete with carry case, teat cup plugs, silicone tubing & manual
- Uses two alkaline 'AA' batteries (accepts NiCd and NiMH rechargeables)
- 1 year warranty
